

HILLADONNA

LIVEFEST

'05

Why DIY? Why A Festival?

"We are a small, diverse group of people driven by our own individual passions & a belief that liberation comes from acting on your thoughts & passions, not just talking about them."

Blackthorn, Issue #2,
October 2002.

Belladonna DIY Fest is more than just a punk show. It is celebration of DIY culture. Belladonna chooses to focus not just on the musical aspects of DIY, but also on the lifestyles, ethics, skills and ideas that enable us to live with increasing independence and self reliance from the dominating culture.

By bringing together the positive happenings in our communities, locally and nationally (even internationally), we hope to inspire, connect and empower those

to have chosen lifestyles non-cohesive to the life the system has designated. We feel through creative, independent gatherings like this we can learn from each other & use our knowledge of life and the world to empower ourselves in the face of apathy, uselessness and depression.

is, the 3rd Belladonna fest, is a bit different. There are a bunch of us organising: Anika, [unclear], Jyoti, Karli, Lachie, Sophie, India, Jess, Agatha, Sara Kaka & Jan. The collective has want more fun for us in the organising process (tho that said, doesn't mean we're not all ally bezerkers from stress!), heaps more events... so much great enthusiasm & energy! e're also branching out a tiny bit. The daytime stuff - workshops, markets, food & [unclear] time stuff all held at the Youthie as before. The night time stuff & Sunday's events [unclear] at Project Art Space - shows, craparet, viDIYeo/punk flier art exhibition. Also at [unclear] object is a 2week long exhibition put on by the folks at Vicious Cycle.

alladonna aims to create an environment where folks can come together in a way that promotes respect, understanding & community.

e aim to incite a passion to take control of your life, your body & your creativity!

BELLADONNA DIY FEST SAFER SPACES POLICY

The Belladonna Collective is working to create Safer Spaces at all of our events.

We say "safer" realizing that no space can be entirely safe for everyone. Although there is often a discourse on 'equality', we realize that not everyone experiences spaces in the same way as others. We are hoping to shift the discourse to that of 'respect' and 'responsibility'. We are experimenting with this Safer Spaces Policy (SSP) to put the discourse into action.

Safer Spaces are welcoming, inviting and engaging. They are about creating an accepting and supportive environment. Safer Spaces require that people not only respect and accept one another but actively look out for the welfare of each other and the whole community.

There will be Mediators at all the events (i.e., during the daytime activities and at the shows in the evening). The Mediator's role is that of a contact person. They are there to be approached if someone is feeling unsafe. They can act as spokesperson &/or mediator if someone needs to be called on their unsafe behaviour. They are there to talk to folks about what the SSP is and how it works for Belladonna DIY Fest.

What is creating a Safer Space all about?

Respect people's physical, mental and emotional boundaries.

Always get explicit verbal consent before touching someone or crossing personal boundaries.

Respect people's opinions, beliefs, differing states of being, and differing points of view.

Be responsible for your own actions and the effects they have on others.

Take responsibility for your own safety and get help if you need it.

OPEN SPACE YALL!!!

AT BELLADONNA THIS YEAR YOU WILL NOTICE

A BIG BANNER WITH A BLANK TIMETABLE IN IT

this is for everyone, its a diy fest, so if you wanna put on a workshop

you wanna share yer skills, ideas, information plots plans or stories
teach kids a song you made up or go on a midnight swim excursion here is the

place to let everyone know what you are doing

so just wack up a bit of paper with what your workshop (or whatever it is

you are planning) is about, the time it starts and where it will be. the youth

cenna n project space are pretty full of workshops already, but that leaves

the whole park, the courtyard of the youthie, and the rest of wollongong!!!

remember, the kids who are already putting on workshops arent the experts
they just took a bit of innitiative, you could too

making sure anyone can be involved at this level means we create the belladonnas

we all want, for three days we break down the teacher/s tudent binary and we
can all learn, play, share and do it our fuckin' selves!!! yeahhh xxxx

be a good punk kid and dont forget to shop up a t your workshop

CHILLAX!!!

RELAX!!!

DESTRESS!!!

So, you may think I'm not wearing any shoes or that I may have a few negligees' in the tub tie-dying, but this is not just hippie bullshit, this is actually really important! We live in a crazy fucked up world; everyone we know suffers from some form of anxiety, depression and stress. Read on and learn how to

Breathe!!!!!!!!!!!!!!!

Breathing exercises!!!!!!!!!!

- ☐ Lie down on a blanket or rug on the floor. Bend your knees and move your feet about eight inches apart, with your toes turned outward slightly. Make sure your spine is straight.
- ☐ Place one hand on your abdomen and one hand on your chest.
- ☐ Inhale slowly and deeply through your nose into your abdomen to push up your hand as much as feels comfortable. Your chest should move only a little and only with your abdomen.
- ☐ Continue step three until it becomes rhythmic and comfortable. Now smile slightly, inhale through your nose and exhale through your mouth, making a quiet, breezy sound as you gently blow out. Your mouth, tongue and jaw will be relaxed. Take long, slow, deep breaths raising and lowering your abdomen. Hear the sound and feel the texture of breathing as you become more and more relaxed.
- ☐ When you first begin this technique, do it for five minutes. When you become more comfortable with it, you may extend it up to 20 minutes.
- ☐ Upon ending a session, stay still for a few minutes and try to keep the entire body relaxed.
- ☐ The purpose of this technique is to develop a good, relaxing breathing method. It may be practiced anytime, especially during stressful situations.

There! Don't you feel ready to take on another riot cop. You will be throwing your ne Molotov with perfect aim and grace.

Just remember to

CHILAX!!!!!!!!!!!!!!!!!!!!

LENCE EQUALS DEATH

Violence underlies these systems.

Graffiti really means writing or drawing on walls and public places. However, where companies and governments have signs written or drawn for them it is called 'advertising'. When alternative groups without much money write or draw on walls, without paying, they are called graffiti, and can be effective advertising. Sometimes it can take the form of counter-advertising by altering advertisements which are sexist or misleading.

Standing up to authority and non-violent direct action

We are trained to passivity and to obey authority in almost every aspect of our lives. Despite this everywhere around the world and throughout history people have resisted. This workshop aims to uncover some of the ways our society pushes us to conform. Through play and reflection on our experience we will explore ways of defending our autonomy. In the last part of this workshop we will look at the practical application of this to broader social change through direct action.

Violence is:

- the capacity to inflict physical pain, harm or death,
- the capacity to punish by restricting freedom and limiting choices
- the capacity to withhold vital resources or rewards
- the capacity to inflict emotional and psychological damage and to shame and humiliate.

CUT VERTICALS FIRST

THEN HORIZONTALS (HARD BIT!)

Contemporary fences, as we all know, are designed to prevent people from entering forbidden places. However, some activists take one look at a 5m-high weld-mesh fence topped with spanking new razor wire, and think anything from "Oh yes, I'll just pop over that one before breakfast and wave a banner quickly while I'm on the top", to "Lets nick a Humvee and just trash the sucker" (slightly more expedient perhaps?). The approach we takes depends not only on our personal philosophies about "criminal" damage and whether we mind going to prison for Taking and Driving Away, but rather more pragmatically it depends on *why* we want to go over/under/through the fence in question.

Plan the middle of the steel tube, to dip into

LAKE COWAL WORKSHOPS

**WATER MORE PRECIOUS
GOLD.**

Lake Cowal is the sacred heart of the Wiradjuri Nation, currently being desecrated by Multinational Barrick Gold, who are building the world's second biggest Cyanide leach plant in Australia. Barrick is owned by entrepreneur Peter Munk, and is on the company of George Buza on the Board of Directors. In the War Gold is the resource which provides most security to investors, and are currently opening 3 other mines including one in Chile. Ancient glaciers are under

This workshop will include a breakdown of current issues around the mine and a breakdown of the campaigns around Lake Cowal.

Water	Saturday
Cyanide	12 midday
Culture	Youth Centre

This is not about preaching to the converted...
Come and share ideas and strategies.

Lake Cowal is C

SEXUAL

heALT

!!!

Get amongst it.

Keep a close eye on your discharge. Smell it, taste it, touch it. Notice any changes. If you can get your hands on your vulva, stick it in and have a poke around, use a mirror and flashlight. If you do this a few times you'll definitely begin to notice the changes, your cycle of smell and type of discharge, and you'll know if anything's not quite right. Some STD's or STI's can be detected by noticing maybe foamy or bubbly discharge or sometimes red marks on your cervix. But not all the time. It's good to get a check up with your doc!!!

Cool interesting sexual health remedies!

Pubic Lice

Mayonnaise or Vaseline..... yep!!

Cover the hair completely in mayo or Vaseline, (you can use Soya mayo too!), this ideally would be better if it could be covered like wrapped up in something like glad wrap??? Or a dental dam, but because of the awkward area, might be a bit tricky, but if the lice have spread to other areas it might be worth it. After a couple of hours, the mayo should be washed off with natural soap, only wash the top of your mound and not inside

the labia. It could cause a yeast infection, or just cause discomfort. You can leave the Vaseline on all night if you want to cause it to go away, but the downside is that you need a lot of baby oil to get out the Vaseline. Now that you've got rid of the lice, you need to get rid of the eggs.....

Vinegar!!!!!!!

Shampoo the pubic hair with vinegar. Run a comb through, a nit comb is the best to remove eggs. After rinsing and drying, you should go through the hair and pick out any remaining nits.

YOU MUST CHECK EACH HAIR.

And check every day for new nits.

Check your mucus

1
Beginning
Mucus
(sticky)

2
Fertile
Mucus
(creamy)

3
Most Fertile
Mucus
(stretchy)

Bladder and urinary infection

Yuk yuk yuk! So fricken painful, so fricken easy to get. Get up and go to the fricken toilet, this is the best way of prevention. Eat foods that won't generate acid in your body, a more alkaline diet will help. Like almonds, leaks, turnips and barley. But for those who consistently suffer from this type of infection, drinking cranberry juice or taking cranberry tablets every day is must. And drinking a shit load water will help as well!

I heard the other day that bolling corn silk and then drinking it as a tea will get rid of a bladder infection! suffering from any pain you can take some valerian capsules as needed.

COOKING!!!!

diy fest. diy cooking. food is important. knowing how to prepare good, healthy food is even more important. sure, you might think you can live off potato chips and mee goreng but will your body be getting everything it needs? bodies are just like cars. you need to put the right fuel in the engine or else it won't work properly! the majority of us are brought up being told that we must eat meat, dairy and eggs or we'll get sick! ethics and environmental aspects aside, a well balanced plant based diet can do more for your health than many so called "health professionals" might have you believe.

eating foods without animal protein (avoiding all animal products) doesn't mean you have to miss out on all the good stuff. not at all! some of my favourite dishes to make are creamy coconut pies, lasagnes, apple crumble cakes, roast veggies & baked polenta triangles with rich tomato sauces, double choc-chip muffins, spaghetti bolognese, massaman curries, gourmet pizzas with "cheesy" sauce and many, many more... aiming for a diet high in whole, unprocessed, organic foods, with an emphasis on raw and living foods such as sprouted seeds, grains and nuts is ideal!

sharing food is also really important. nothing beats getting together with a bunch of friends and sharing amazingly delicious food. it fills me with so much warmth and happiness and I know it brings smiles to my friends faces when they bite into a delicious home made pie, freshly made salad or chocolate pudding! potlucks are so easy to organise, with each person bringing along one dish and then you end up with a banquet of awesome food!

my aim in this workshop is to be able to share some good food and share a few ways in which we can all eat a healthier diet that is not only better for us but also for the environment and all other beings that we share this planet with!

veganism is about respect for all life and striving for an end to all forms of oppression and exploitation. veganism isn't about perfection.

MAKE IT SEXY AND MAKE IT PERVERSE
MAKE IT RAD, MAKE IT RADICAL, MAKE IT
MAKE NINE CIRCUS, MAKE IT RADICAL, MAKE IT

TOTALLY AMAZING PUNK ROCK TRIVIA!!!!

a few months ago after food not bombs on a monday we randomly went down to the pub to play trivia. and we loved it. In fact i think we got obsessed with it, it was like an explosion of competitiveness i had never seen in us. we started going every week, we got to know the teams - which ones were our sworn enemies and which ones were our allies. one time i was so excited i was running to get a picture question card from the bar and i was running back in such a hurry that i tripped and face planted into the floor but i just got up and kept on running. one night we also forced the trivia person to have a dance off when there was a tie, and it was totally awesome. anyway so we decided to bring our obsession with trivia to belladonna and at the same time raise money for GECCO. We've written the trivia based around punk culture, id say its incredible and will give people the chance to show off their useless knowledge.

ABOUT GECCO

Situated in the heart of East Gippsland GECCO is a networking, political and education collective working for the protection of the remaining Old Growth forests in East Gippsland, Victoria, Australia. The environment centre is nestled between the Errinundra and Snowy River National Parks and overlooks the majestic Mt Ellery.

The Goongerah Environment Centre (GECCO) began during the 1993-1994 summer forest campaign and has been involved in the ongoing forest debate since.

Many environment groups and concerned individuals have put time and energy into supporting GECCO and have appreciated the importance of the on site information we can provide. The people that live and work at GECCO are dedicated to the protection of the High Conservation Value (HCV) Forests in East Gippsland. This is achieved by -

- networking with other environment groups and the traditional owners,
- endangered species surveying,

- monitoring of logging operations and forest management,
- liaising with workers and with police,
- public awareness campaigns & fundraising
- and last, but by no means least, non-violent direct action.

Logging of Old Growth is happening right now in East Gippsland and it needs your support. For more info go to www.geco.org.au

Practice Question:

What will be the totally most amazing night of your life:

- a) your wedding night
- b) party at Iceland on new years eve
- c) sneaking into a destynys child concert
- d) totally amazing punk rock trivia!!!!!!!!!!!!

answer: d) totally amazing punk rock trivia!!!!!!!!!!!!

Higher magnification (1200x) of the white punk rock from Ghost Town in Lechuguilla Cave, Carlsbad Caverns National Park, NM. Notice the chewed-up nature of the

Apuppetyllyst...

hitch a ride to the apuppetyllyse
where worlds are strung into
snarly existences and the hot goo of dissent
forges the creatures from
the worlds of your own
to rise up and play on the

Belladonna Skateboarding Workshop

As Belladonna celebrates it's 3rd year as a festival, Belladonna is enthusiastic and optimistic towards running a Skateboarding Workshop.

words by Lloyd Ingram, Skateboarding Workshop Co ordinator.

Skateboarding..

I have been Skateboarding for close to 6 years now!

How good am I?

not very!

though what I have achieved out of skateboarding is endless possibilities..

Skateboarding has explored everywhere with me! It's a passion, a liberty!

it has welcomed me life long friendships, survival skills, understanding of urban environment, the way society accepts, comprehends and interprets.. etc.. and still it is teaching as I am learning..

Skateboarding is an activity (sport if you may) that you can develop at your own pace. and time..

Skateboarding is for the single figure.. it has no rules, no teams and no boundaries..

It's a DIY!

These are reasons and issues I want to expand, teach and introduce to others. And because Belladonna is a DIY I am greatly excited to introduce and teach my view and experiences of Skateboarding to others.

A Brief Introduction To Autism Spectrum Disorders

Social welfare and provision of services for people with disabilities in particular has been a traditional site of volunteering and employment for people from punk communities. To paraphrase Aaron Cometbus, punks for our social stigmatisms often are the ones to take on the responsibility of upholding civil society--whether that be helping people cross the road or taking on the police at a demonstration. With this significant role of the punk community in mind I have decided to provide this workshop introducing people to Autism Spectrum Disorders (ASD).

Here are a few notes for preparation of the workshop:

1. I use the term 'Autism Spectrum Disorder' as it is the terminology widely used by services and given preference by a number of people with an ASD. Nonetheless, it is important to recognise that everyone is "on the spectrum." That is, we all have individual characteristics representative of ASD, and vary only in degree.
2. What is ASD? This will be a significant point of discussion and activity in the workshop. ASD is defined around a 'triad of impairment.' This consists of an impairment of social interaction, communication, and behaviour. This triad is often drawn as a triangle. Inside the triangle is an individual's sensory experiences. It is the individuals hyper/hypo-sensory awareness that defines the triad. Finally, at the base of this triangle is 'theory of mind,' an individual's knowledge of self and others. A focus of this workshop will be to create a working understanding of this definition.
3. We are all individuals. Individuals need to be understood for who they are, not by a disorder. This workshop is being provided to assist in developing an understanding of individuals, and as a starting point of developing skills such as communication that will assist in becoming a meaningful part of people's lives.

Pirate

Radio

f large numbers of people believe in free speech, there will be freedom of speech"

- George Orwell

"when in the cause if human development ,
existing institutions prove inadequate to
the needs of man, when they serve
merely to enslave, rob and oppress
mankind, the people have the eternal
right to rebel against, and overthrow ,
these insituitions"

- Emma Goldman

Radio frequency (RF) signals have
amplitude and frequency.

The frequency is how fast
the signal is oscillating
from one extreme to the other
and back again. Frequency is
measured in cycles per
second (cp/s), which these
days are known as Hertz (Hz).

1000Hz= 1KHz, 1,000,000Hz =

1MHz and 1,000,000,000 =

1GHz. The amplitude is to what
extent the signal is oscillating.

Level or Strength can be

thought of as meaning the same as amplitude. Amplitude can be measured in Volts (V) or Watts (W or dBm).

Two ways of imparting our wanted information onto the RF carrier are Amplitude Modulation (AM) and Frequency Modulation (FM).

In AM the *amplitude* of the carrier is determined at every instant by the amplitude of the audio signal, the carrier frequency remains constant. In

FM the *frequency* of the carrier

is determined at every instant by the amplitude of the audio signal, and the carrier amplitude remains constant.

Frequencies between 30 MHz and 300MHz are known as Very High Frequencies or VHF. This corresponds to wavelengths between 10metres and 1metre. To convert between wavelength and frequency use the formula

wavelength (in metres) = $\frac{300}{\text{frequency (in MHz)}}$

A "pirate" radio station is unlicensed, illegal station broadcasting in violation of the laws of the country it is located in. Unlike clandestine stations, pirate radio stations are seldom political in nature. Instead, pirates are usually hobby broadcasters operated just for fun by their owners.

What Do We Do When:

Community Response To Sexual Assault.

This year at Belladonna will see the second running of the workshop/~~then~~ discussion about sexual assault and how we as a radical community or groups of radical communities respond to it, support each other and aid in the healing process.

This is such a hard thing to think and talk about. But, as hard as it is, it's equally important that these kinds of discussions and thoughts happen.

The 2nd 'What Do We Do When?' zine will be launched at the festival. Following is an excerpt from the zine:

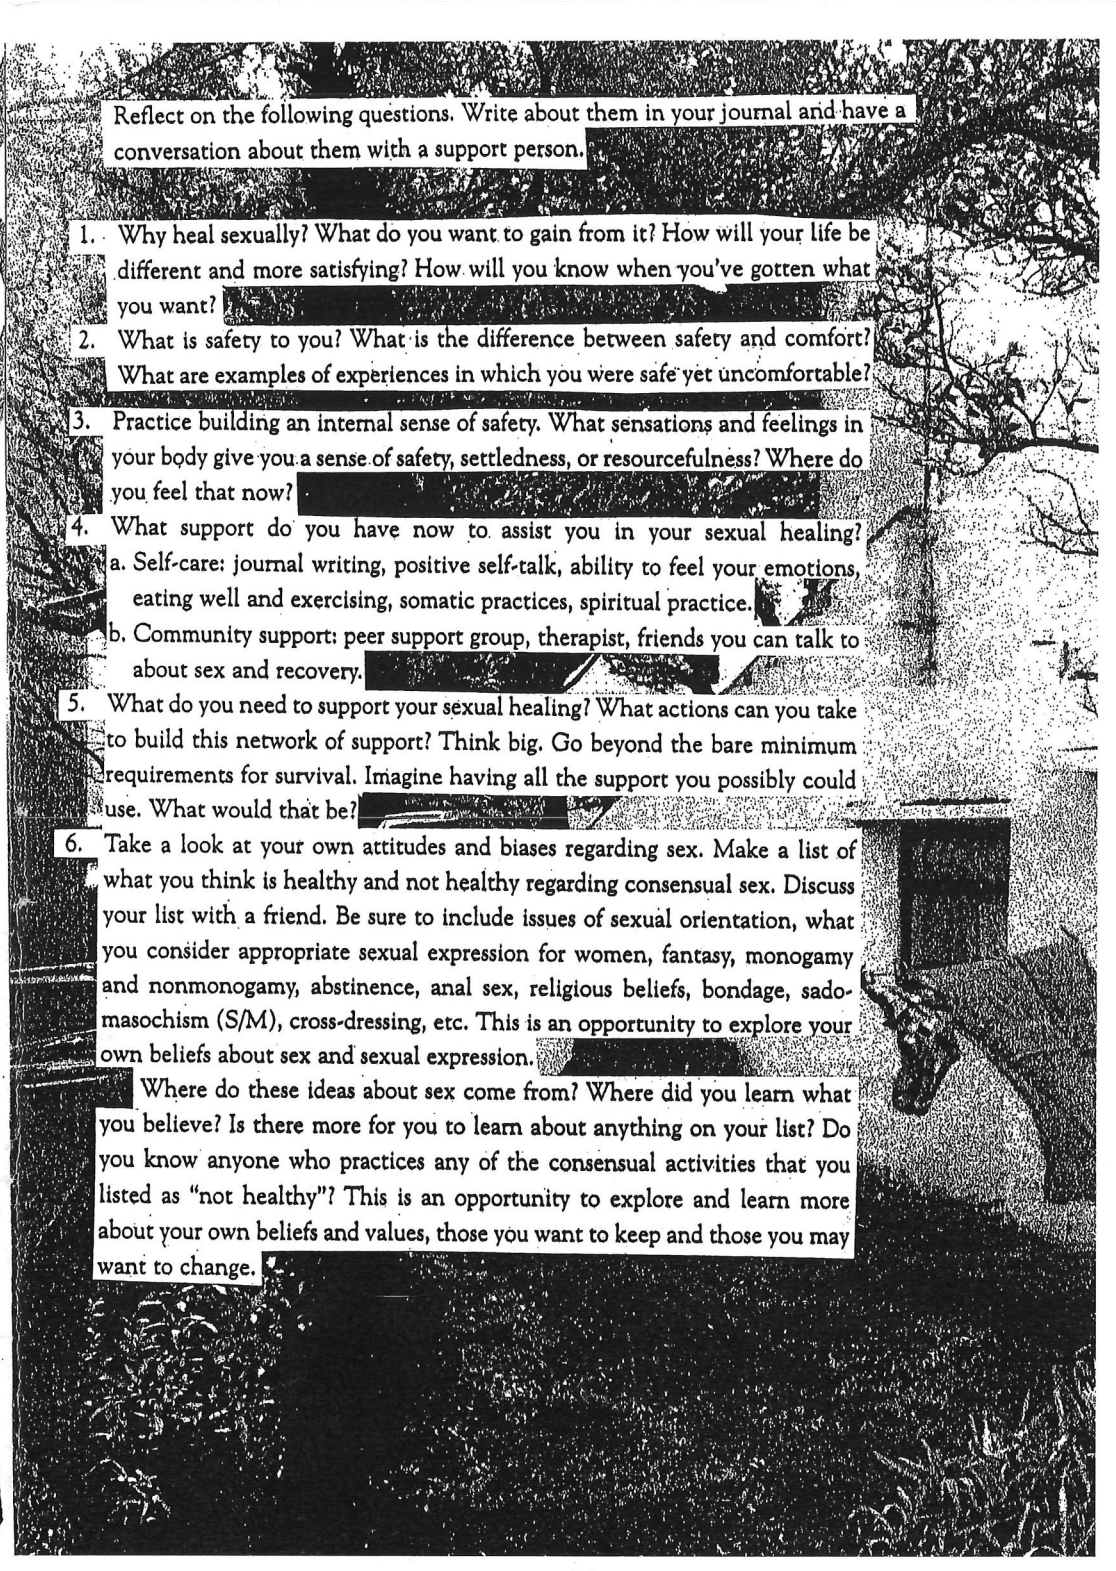

These questions are part of a workbook from the U.S. that's aimed at helping folks heal + recover emotionally from assault/abuse/trauma. That said, I feel these questions are useful for all folks to consider and talk about with friends + lovers.

WHAT TELLS YOU THAT YOU ARE SAFE?

When checking in on your safety in a given situation, consider the following:

- How do you feel in your body? Do you feel safe, scared, unsettled?
- Is your physical environment safe and free of violence and abuse? (No one is hitting, kicking, punching, or pushing you. No one is calling you names or threatening you or anyone you care about.)
- Does your partner, lover, or friend consider your needs, wants, and desires as important and relevant as his or her own?
- Can your partner, lover, or friend really meet your needs? Does he or she have the know-how, the tools, and the good intention?
- Do you have the power in this situation to act upon your own behalf? To take care of yourself fully?
- Are you making your own choices? Not being pressured, pushed, or manipulated?

Asking yourself these questions gives you a way to assess whether or not you are safe—even when you do not necessarily feel safe.

Reflect on the following questions. Write about them in your journal and have a conversation about them with a support person.

1. Why heal sexually? What do you want to gain from it? How will your life be different and more satisfying? How will you know when you've gotten what you want?
2. What is safety to you? What is the difference between safety and comfort? What are examples of experiences in which you were safe yet uncomfortable?
3. Practice building an internal sense of safety. What sensations and feelings in your body give you a sense of safety, settledness, or resourcefulness? Where do you feel that now?
4. What support do you have now to assist you in your sexual healing?
 - a. Self-care: journal writing, positive self-talk, ability to feel your emotions, eating well and exercising, somatic practices, spiritual practice.
 - b. Community support: peer support group, therapist, friends you can talk to about sex and recovery.
5. What do you need to support your sexual healing? What actions can you take to build this network of support? Think big. Go beyond the bare minimum requirements for survival. Imagine having all the support you possibly could use. What would that be?
6. Take a look at your own attitudes and biases regarding sex. Make a list of what you think is healthy and not healthy regarding consensual sex. Discuss your list with a friend. Be sure to include issues of sexual orientation, what you consider appropriate sexual expression for women, fantasy, monogamy and nonmonogamy, abstinence, anal sex, religious beliefs, bondage, sado-masochism (S/M), cross-dressing, etc. This is an opportunity to explore your own beliefs about sex and sexual expression.

Where do these ideas about sex come from? Where did you learn what you believe? Is there more for you to learn about anything on your list? Do you know anyone who practices any of the consensual activities that you listed as "not healthy"? This is an opportunity to explore and learn more about your own beliefs and values, those you want to keep and those you may want to change.

CHEF'S CHOICE cnr Market & Regent St. Super cheap, fast service, recommend
a salt & spice tofu + honey pumpkin + mixed veg & tofu.

AI BASIL Keira St, left hand side, 1 block up from bus interchange. It's all good,
mmm Thai food.

AT BOYS GRILL Market St (opposite direction from Chef's Choice). Amazing
Turkish Plide & vege rolls. They're cool to make things vegan, just ask. The Baklava
also vegan (for those who are ok with honey). Its cheap & filling!

INTO HOUSE Keira St. where the bus stop is. Good Japanese food. Cool to do
vegan stuff. Used to have a rad lunch special with miso & sushi.

ting around:

You're planning on having 3-4 'Free Bikes' available at the fest. You're welcome to ride
them around town, to the beach, whatever, just be sure to return them to the fest
when you're done, be friendly & share them!

Beaches:

North beach is a dog friendly beach, but not the best to swim at. It has a strong
southern current & lots of rips. Don't swim there drunk and/or alone!

North Beach is more the touristsy beach. Its real nice at low tide to just float around
in the gets ok waves.

Rock Pool, just before North Beach if you're walking along bike track (yep there's
a bike track that connects all the beaches). It's great at all times of the day, but
best at night, skinny dipping is good. There's some fish in there to check out.
There's a regular lap pool just before the rock pool. It has kiddie pool (tho so does
the rock pools), showers, change rooms and the like.
